

Moving Forward With Asset Management

Workshops for politicians, CAO's, operations, finance and planning personnel

Nanaimo: Tuesday, March 16

Prince George: Thursday, March 18

Cranbrook: Thursday March 25

West Kelowna: Monday March 29

Asset Management Strategies?
What do we do next?
How do we proceed?
How and what do we advise Council?

Learn from others

Registration and refreshments at 8:00 A.M

8:30 – 9:00

Where are we now?

The state of asset management today. How 'Level of Service' needs to be considered as a policy issue and operational issue. Current barriers to asset management. What others are doing and what we should do about it. Is PSAB 3150 over?

9:00 – 10:00

Infrastructure Challenges in Asset Management

What do you own and what is it worth? What else do we need to know now and in the future? How should we use this data? How do we make forecasts that are meaningful? How do I use the concept of lifecycle. What is a reasonable period to plan?

10:15 – 11:00

Leadership and Asset Management

Why adopt an asset management policy and plan? What do we need to deliver? What are the paybacks? What resources do I need? What are the obstacles? What decision making processes should we use? How do we integrate all our processes? What is the role of council and staff? What has to change to make it work?

11:00 – 12:00

Information Strategies for Asset Management

What do we need to know about data management? How is data used and collected? Are software systems / GIS right for me? How can I integrate data and data bases? How do I choose a vendor? What range of tools are available and how do they fit together?

LUNCH BREAK Provided

12:45 – 1:30

Planning Strategies for Asset Management

How does asset management fit with Official Community plans and the overall planning process? How does planning data and information support and influence the AM process? Forecasting for infrastructure demand and eliminating disused infrastructure. Defining sustainability and building sustainability into the asset management process and reporting. Defining and delivering a public consultation

1:30 – 2:15

Financial Strategies for Asset Management

What are the BC Government requirements for municipal budgets, and what are the sources of accounting and financial practices in BC? What are the recommended practices from the Public Sector Accounting Board? Share PSAB 3150 experiences. What are the challenges in integrating existing financial systems with AM systems? How can you forecast future demands and costs? What are the consequences of using life cycle costing in financial planning?

2:15 – 3:30

Team Building for Asset Management

Learn strategies for engaging and communicating across all disciplines and parties both vertically and horizontally across jurisdictions. Learn how to instill a team vision and the freeing power of team priorities. Develop group cohesiveness across all disciplines.

3:30 – 4:15

Developing an Asset Management Plan

Local case study presentations on developing plans or issues associated with specific portions of the asset management process. What can we learn from our neighbouring communities? Speakers will be available for a Group Discussion and forum.
